TRAINING · OVERVIEW

Training Programs

Hands-on Power BI, data analytics and AI programs for teams, and personal upskilling for individuals, built around real data and business problems.

WHO IT IS FOR

- Analysts who build reports and dashboards
- Managers who need to read data and decide with it
- Executives who want a working grasp of analytics and AI
- Individuals upskilling for their next role

WHAT YOU GET

- Onsite, online or blended formats
- Real cases from your own data
- Programs for analysts, managers and executives
- Practice exercises and a final applied case

THE OUTCOME

Participants who can clean and model data, build dashboards that answer real questions and present the story behind the numbers.

HOW IT WORKS

1. **Discovery call**
   We agree on the goal, the audience and what success looks like.
2. **Proposal**
   Scope, format, timing and fees, tailored to your needs.
3. **Delivery**
   Hands-on and built around your context and data.
4. **Follow up**
   Next steps and a check on whether the goal was met.

WHY WORK WITH ME

- Delivered for ESLSCA University, EPEA, E-Youth and corporate teams in Egypt and Saudi Arabia. Microsoft Certified Trainer. Every engagement follows the same discipline: frame the decision, gather the evidence, re-test assumptions, find the root cause and measure the result.

Let's talk about your goals

Delivered in Arabic or English. Fees are quoted after a short discovery call.
